Description

Product Description

The industry standard heavy duty foul weather jacket, renowned for its durability and performance in the harshest conditions. The Crew 211 jacket is used for commercial fishing and industrial use worldwide. Developed for the demanding southern ocean south of New Zealand. The Crew foul weather jacket is class leading with features such as; adjustable neoprene cuffs and double PVC front and forearms.

Foul Weather Jacket Features:

- Double layer front 630 gsm PVC.
- Full length heavy duty reinforced zip.
- Velcro storm flap.
- Drawstring storm hood.
- Neoprene adjustable cuffs for water protection and comfort.
- Shorter front to reduce bulk with longer back for added water protection.
- Featured in mostly Neon for hi-visibility for superior performance in all conditions and enhanced safety and identification.
